EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Patricia Sheehan on 03/16/2005.

In claim 6, line 6: after "linked list", insert --, wherein D is the number of bits in an unconstrained data sequence--

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior arts of record fail to teach a method of encoding a block of data to be provided to a data channel comprising: receiving blocks of data in an unconstrained data stream; and producing a constrained data stream to satisfy a code constraint of the data channel by replacing code constraint violating bit sequences occurring in each data block with values that include non-code-constraint-violating pointer values to form a linked list in such data block.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
